CAREER OBJECTIVE

Seeking a challenging position to apply technical expertise and analytical skills while collaborating in fast-paced, innovative settings, contributing to organizational goals, and fostering continuous professional development.

EDUCATION

Bachelor of Technology in Computer Science and Engineering (2022 - 2025)
Prasad V Potluri Siddhartha Institute of Technology, Vijayawada   **CGPA: 7.29**

TECHNICAL SKILLS

- Programming Languages: Java, Python, C++
- Web Technologies: HTML, CSS, JavaScript, ReactJS
- Databases: MySQL, MongoDB
- Control versions   Git, Github

CODING PROFILES

- https://github.com/Maha10221
- LeetCode
- HackerRank
- GeeksForGeeks
- CodeChef

PROJECTS

Travel Journal app: TechStack: ReactJs,HTML,CSS | SourceCode | Live link

- Developed integrated tracking maps complemented by eye-catching visuals, which led to a 15% boost in user engagement and session duration.
- Designed and implemented a project plan for building a React application focused on effortless usability, resulting in improved customer satisfaction ratings derived from feedback gathered from more than 200 users during pre-launch testing.

Restaurant Menu List :   TechStack: JavaScript,HTML,CSS | SourceCode | Live link

- Designed a visually appealing website with interactive features, boosting engagement by 25%.
- Incorporated feedback from friends, improving user experience and satisfaction, leading to a 10% reduction in bounce rate.

House price prediction :   TechStack: ipynb, Google CoLab| SourceCode

- Led a team of 4 in developing a machine learning model for house price prediction with 90% accuracy, optimizing performance by reducing the mean squared error by 15%.

INTERNSHIPS

Salesforce developer virtual internship | 8 weeks | July2024 - August 2024

- Acquired hands-on experience developing scalable solutions on Salesforce's cloud-based platform, with a focus on Apex, Visualforce, and the Lightning Component Framework for enhanced functionality and user experience.

Cloud Virtual Internship supported by AWS Academy |10 weeks| Sep 2023 - Nov 2023

- Acquired practical experience in cloud infrastructure, AWS services, and the deployment of scalable applications.

AI-ML Virtual Internship supported by Google |10 weeks | April 2024 - June 2024

- Acquiring practical experience in machine learning applications and techniques.

CERTIFICATES & ACHIEVEMENTS

- Infosys Springboard : Java, Python and C++.
- HackerRank: React(Basic), Problem Solving (Basic), CSS (Basic), SQL (Basic and Intermediate), JavaScript (Intermediate), Java (Basic).
- Smart Interviews: Smart Coder.
- Spoken-tutorial: HTML, Arduino Training, and C Training.

EXTRACURRICULAR ACTIVITIES

- Led a team in multiple hackathons and competitions, demonstrating advanced technical proficiency and solution-oriented approaches to complex challenges.
- Contribution to developers Community: Stack Overflow Solutions[Link]
